Final Agonda

We are pleased to offer our guests the opportunity get a close up and view and test drive some of the vehicles we will have on display.

Below is a partial list of vehicles you can expect to see.

RAV4 Hybrid - RAV4 Hybrid is the sportiest RAV4 yet, with a sleek look to match. Its Toyota Hybrid System II engine produces an ample 219 combined net horsepower for impressive acceleration all the way to highway speeds. So get ready to make the most of every mile and every trip — you might be surprised just how far it takes you.

Propane Gas Association of New England F-250 Propane Pick-Up

Prius AWD - With the Prius, you can confidently face the elements as you discover your own. The Prius can help in rain, snow and dirt with the newly available AWD-e. The available electronic all-wheel-drive feature on Prius was designed to operate up to 43 mph. And with a manufacturer estimated combined 50 mpg, it encourages you to expand your horizons.

Ford Fusion Energi

Jaguar I-Pace

Altec JEMS truck:

Altec has partnered with our customers for over a decade to develop and improve products focused on reducing vehicle engine idle. Jobsite Energy Management Systems (JEMS) are plug-in products that automatically manage engine idle - providing work crews with cleaner, quieter and safer jobsites while reducing engine hours, fuel consumption and vehicle maintenance.

Prius Prime - Prius Prime is the most efficient Toyota hybrid yet. With the power to run in either EV or hybrid driving modes, Prius Prime strikes a harmonious balance between necessity and desire. When the charge has run out, Prius Prime has an EPA-estimated 54 combined mpg. Designed with intelligent tech, premium materials and thoughtful engineering, Prius Prime represents the next step of our continuous quest to reach more efficient mobility with less range anxiety — without compromise.

National Grid 2019 Chevy Bolt

Mirai – The Toyota Mirai, a four-door, mid-size sedan, is a zero-emission hydrogen vehicle with an EPA estimated driving range rating of 312 miles and 67 mpg city/highway/combined. Its performance fully competes with traditional internal combustion engines – but uses no gasoline. With a refueling time of approximately five minutes, the Mirai creates electricity using hydrogen, oxygen and a fuel cell,

FiField eBikes is a New England brand of electric bicycle that are known for their quality and fantastic customer support. They have 8 different models of pedal assist electric bicycles that will be showcased at the event. Similarly to our motto, safety is always first, and they provide a handful of helmets for everyone to wear and a representative will walk through the bike with each participant prior to them getting on a bicycle. You can read more about the companies story and view all their models at https://fifieldebikes.com/.

AltWheels is the perfect opportunity to learn from other fleet managers how to reduce your fleet's environmental footprint AND save money in the process!
